Innovative, High Quality & Customizable

More inventory means more opportunity. That's why Shoppa's supplies and installs many varieties of innovative, high-quality, customizable pallet rack and shelving systems for warehouses and distribution centers of all sizes.

SERVICE, INSTALLATION, AND REPAIRS

We know that pallet racks and shelving systems don't just stand there and hold goods. They are vital components of your business that need to scale to meet your changing needs. Whether they're being newly installed, serviced, expanded, overhauled or relocated, it's important that these systems be set up and maintained correctly in order to minimize risk to your people and property.

YOUR COMPLETE RESOURCE FOR STORAGE SERVICE:

- Pallet Rack Systems
- Mezzanines
- Shelving Systems
- Guard Rails and Safety Equipment

CANTILEVER RACKING

Shoppa's offers cantilever racking, starter kits, and add-on bay packages, an ideal storage choice to pick large and irregular shaped items.

Advantages of cantilever racking are:

- A center column design that maximizes available horizontal space
- Features adjustable 3-inch vertical arm spacing for versatility
- Can be fully customized to meet specific storage requirements.
- Offers the option to mount modules on mobile bases to expand storage capacity without compromising direct access to stored items.
